Part -4

A Glance at the cause of failure of two Decades US Occupation of Afghanistan

Afghanistan current situation is a by-product of crooked playactors:

After two years of behind-the-scenes talks in Doha, the capital of Qatar the Taliban entered Kabul without resistance with the agreement of the United States and Pakistan, making the Kabul Palace their headquarters. Domestic and foreign actors played a key role in bringing the Taliban to power.

Khalilzad, Ashraf Ghani, and Hamid Karzai assisted directly and indirectly in strengthening the Taliban as a rival force to the US puppet government in Kabul, ending the collapse of the regime. So, their insidious actions were the cause in creating the current turmoil situation. Each of the actors played a significant role in facilitating and handing over power to the Taliban, deliberately paving the way for the fall of the regime again to the Taliban terrorist groups after twenty years.

Most Afghan analysts and thinkers inside and outside the country believe that Zalmay Khalilzad is responsible more than anybody else for the failure of the 20-year-old US presence in Afghanistan. It is time that Khalilzad respond to the American Authorities, congresspeople, for his crook role from the Bonn Conference until the fall of the regime. He was a major player in the issues of Afghanistan even before the Bonn conference. Due to his actions, false advice, and tribal propensity to the terror group of Taliban, he drowned a nation in blood, causing death and devastation. Khalilzad played a key role in creating a transitional government led by Hamid Karzai, in the so-called presidential elections in favour of Karzai and Ahmadzai, in manipulating and changing the final draft of the constitution before publication, in secret negotiations with the Taliban faction of (Mullah Baradar Kandhari). During the peace talks in Qatar,

he constantly insisted on the release of 5,500 Taliban criminals from prisons, calling it a precondition for starting and continuing negotiations.

The real faces of Devils are exposed:

- Zalmay Khalilzad has abused his position as US special envoy to the United States. He was expressing his views based on ethnic and racial inclinations to the White House administration and decision-making bodies on Afghanistan issues. Khalilzad was acting in the game as a liar and manipulator, with his tricks and deception, with his constant lobbying and interventions. He was able to pave the way for the release of the 5500 dangerous Taliban criminals. Those who had committed horrific crimes against humanity. The intention was to release them from prisons to strengthen the ranks of the Taliban and boost their combat capability in encountering the national army and at the peace negotiating table as a prominent rival of the Kabul regime.

Zalmay Khalilzad is known as a shammer because of treachery and malice afterthought in secret behind-the-scenes negotiations and agreements with the Taliban, which paved the way for Afghanistan to be handed over to the Taliban, Pakistan's servants, and proxies. Consequently, the Afghan people enmeshed in this inconvenient situation. Due to his failure in his recent peace mission, he resigned from his post, however, he is liable for the whole chaotic situation because of improper implementation of the US policy in Afghanistan, ending in its failure and embarrassment.

He now shamelessly claims that I was not the decision-maker, but the high-ranking Americans, i.e., the American rulers, are responsible for the current situation.

But the question is why Khalilzad, spent two years talking with the Taliban about the peaceful resolution of the Afghan issue and kept the Afghan people in an absolute vacuum of information, even the patriotic representatives in the parliament were unaware of the secret deals about the intention.

- Ashraf Ghani Ahmadzai the former fleeing president American installed in the forged election and Zalmay Khalilzad have many things in common, both were students at the University of Beirut together and were members of the Afghan Nation (known as Afghan Millat) and then Members of Atheists Association in Beirut University. They are of Pashtun ethnicity, Ghilja-e faction and spent years of their lives in the United States but were not able to release themselves from the clutches of their ethnic prejudice.

From childhood, both grew up with prejudice and discrimination against other ethnicities and residents of Afghanistan.

Both Ashraf and Zalmay played distinct roles in diverting public opinion. Khalilzad, as US special envoy to Afghanistan, was pushing for a compromise with the Taliban in coordination with Pakistan in behind-the-scenes talks with the Taliban. In this mission, he raised significantly the political and military position of the Pakistani-made Taliban to such an extent that they emerged as a potential force. Ashraf Ghani also collaborated with him to ban military operations against the Taliban and to prevent military attacks on Taliban positions. He also appointed commanders at the head of military units, garrisons, who had ethnic, ideological, and linguistic tendencies to the Taliban. Inside the prisons, he strengthened the Taliban terrorists and provided them with an atmosphere of calm and upbringing. He seduced the people with his emotional vision, his deed, this act is known to the people of Afghanistan as a clown and laughingstock until he fled the country.

- Hamid Karzai is another person who played a role in strengthening, equipping, and sympathizing with the Taliban as head of the fifth pillar. Hamid Karzai also played a key role in electoral fraud and ousting Ashraf Ghani in collaboration with Zalmay Khalilzad. He is the cause of the United States' notoriety as a leader of widespread corruption in Afghanistan. During his tenure millions of dollars were donated to Afghanistan, entering from one door, and throwing out from another. People, consequently, are trapped in poverty and misery, insecurity, and hardships.
- Another mercenary who, from an early age until recently under the false slogan of the Islamic Government, killed one hundred thousand Kabulis alone by firing rockets from, Char-Asiyab and RaishKhur districts, located to the south of Kabul city. Gulbuddin Hekmatyar (nicknamed – Rocket launcher) is the mainstay of the ISI and does not hesitate to commit any crime to gain power.

Sometimes he sympathizes with ISIS, sometimes he defends the Taliban, sometimes he sides with terrorists.

Mr Hekmatyar is strongly associated with the Communist group of the former People's Democratic Party (PDPA) affiliated with General Shahnawaz, who submitted himself to ISI after being defeated in the coup against President Najibullah. Gulbuddin Hekmatyar, Khalilzad, Hamid Karzai and Ashraf Ghani all have an ethnic and linguistic tendency and do not believe in broad abased administration composed of all ethnicities based on their expertise, skills, and

merits. Therefore, they do have not any principle in shaping a government to represent all people except their ethnicity and language. The Islamic claim is a mask for national treason.

Hekmatyar assassinated hundreds of people, including the military, politicians, journalists, university professors, moderate clerics and peace activists, especially non-Pashtuns since he entered Kabul in the name of peace. Hekmatyar's group has unique skills in assassination and intimidation from the first years of their stay until now since they underwent training in Pakistan under the Pakistani intelligence service, according to credible Pakistani and Afghan observers.
